Description

Kayland men's shoes. The Cross Mountain GTX hiking boots will guarantee that you will never wear other hiking boots again! These mountain boots with bold yellow elements bring a new concept of comfort and performance and sit somewhere between a mountaineering shoe and a hiking shoe. Boots for the forest will provide support and high performance in mixed terrain with mountain slopes, stones, snow and ice, they are an excellent compromise between low weight and technical properties. Mountaineering boots are also suitable for mountain guides or rescuers.

Ankle boots for the forest have a leather upper in combination with breathable textile, they have anti-abrasion technology, Ankle Lock technology to protect and fix the ankle. Waterproof shoes for men have a Gore-tex[®] membrane, which makes them waterproof and breathable at the same time. Comfort is guaranteed by a microporous midsole with a long service life and the ability to absorb shocks perfectly. The Vibram[®] Mulaz Evo sole provides excellent grip even on very slippery terrain.
