Description

Kayland footwear. Ankle-cut hiking boots in an attractive combination of brown and red colors are suitable for use in rocky and mixed terrain. They will support you in all circumstances! The ALS system is integrated on the abrasion-resistant suede leather upper, which guarantees optimal heel protection during the hike. Outdoor shoes have asymmetric lacing to ensure foot fixation along with a medium profile. Ankle hiking boots have a reinforced heel and toe with a rubber overhang.

Waterproof hiking boots with a Gore-Tex ® membrane also ensure excellent breathability. The mountain boots have a microporous midsole that absorbs shocks perfectly and a Vibram ® Gravity sole with MegaGrip admixture for perfect grip when climbing or walking on uneven, slippery surfaces.

Product details:
