Description

Men's ice skates by Fila Skates. Viper hockey skates are reliable, accurate and high performance. The skate shoe is made of tough synthetic leather, is lined with a velvet lining for more thermal insulation and has a raised felt tongue to protect against impacts during play. They will also convince you with their ergonomic structure, specific stainless steel knife and blade holder made of ultra-light material. The internal anatomical structure of the ice skates will ensure efficient transfer of movement power and maximum performance during the game.

Men's ice skates are easy to lace thanks to the wide laces, even with gloves. They have a rear spoiler and a reinforced tip. Winter skates for men are a guarantee of uncompromising performance. They are not afraid of precise movements and sudden changes of direction. Men's ice skates have a classic design enlivened by a geometric pattern.
