Suggested retail price: 129.99 € s DPH

Description

Kayland men's shoes in gray-blue design. The modern and functional design of the Ascent GTX hiking boots is combined with first-class processing. The higher cut, reinforced toe and reinforced heel of the trekking boots protect the foot in difficult terrain.

The advantage of outdoor shoes is the Gore-tex Extended Comfort membrane, which you will appreciate especially in adverse weather. It ensures dryness in the shoes and thus protects the feet. Kayland trekking shoes are excellent companions for hiking, trekking, walks in nature and outdoor experiences.
