Description

Merrell women's shoes. Hiking shoes Waterpro Maipo in gray - blue version were designed in an outdoor design. The upper is formed by a combination of mesh and synthetic material for a high level of air ventilation.

The midsole of the trekking shoes perfectly absorbs shocks and ensures excellent cushioning. The inner padding of the trekking shoes ensures comfort even during longer hikes. The advantage of hiking shoes is the Vibram sole, which is also suitable for demanding rocky terrain and various types of surfaces.

Outdoor shoes are the perfect choice for trekking, camping, demanding hiking trails, walks in the forest and outdoor activities.
