Description

Hannah brand sleeping bag. Biker 100 sleeping bag with single-layer construction and anatomical cut. It is filled with Izotherm bromobutyl hollow fiber. It has a two-way zip covered with a reinforced anti-clamping placket and a semi-open shaped hood with a one-handed drawcord.

The sleeping bag has an internal collar with regulation, a safety device against accidental opening of the zipper, loops for hanging, an internal pocket and a compression package.

After packing, it takes up minimal volume. It is intended for summer stays in nature or festivals.

The zipper is located on the right side. The left and right sleeping bag can be zipped together to create one large sleeping bag.
