Description

Cycling helmet brand HQBC. The universal and affordable QLIMAT bicycle helmet with a modern design impresses with its shape and comfort. Excellent air ventilation is provided by 21 large ventilation holes located not only in the front, but also in the back of the bicycle helmet. It ventilates the head perfectly and keeps it cool even in the hottest days.

The upper shell covers the entire surface of the helmet, which facilitates maintenance. The fastening belts are ventilated with mesh material in the middle part, which in addition to functionality also brings elegance.

The proven simple rotating adjustment mechanism at the back allows fine adjustment of the size of the bicycle helmet within the given range. The bicycle helmet has high-quality inner linings that are easily removable and washable. The helmet includes an elegant shield that protects against branches or sunlight in the open countryside or in the city when riding in the forest.
