**Suggested retail price:** 43.99 € s DPH

### Description

Hotronic dryer. The Micro Dry dryer is practical and flexible. You can use it at home, on a trip or on a business trip.

Simply plug it into the vehicle's 12V electrical system and preheat your boots. Thanks to its compact dimensions, the dryer fits into the smallest pocket and you can take it anywhere with you.

The dryer is ideal for ski boots, snowboard boots, cleats, running shoes, work shoes, but also for children's shoes. You can also use it to dry skiing, riding and other gloves.
