Description

Color Kids thermal underwear for girls. The set of SEAMLESS UNDERWEAR thermal clothing includes thermal pants and a thermal T-shirt in a beautiful raspberry color. The seamless design guarantees maximum comfort and the elastic material allows freedom of movement during any activity. The material with a high polyamide content wicks away sweat well from the body and thus keeps the child dry and warm.

Thermal clothing can be worn as a bottom layer under ski clothing, for winter hiking, building snowmen or sledding. It is also suitable separately for cycling or running.

Product details:

- Set of long-sleeved T-shirt and long pants
- Modern color design with decorative white stitching
- Quick-drying and comfortable material
- Ergonomic design
- Elastic material
- Wide hems at the ends
