**Description**

Ziener cycling gloves. Light, unlined winter cycling gloves Dallen touch made of softshell material will keep your hands pleasantly warm at colder temperatures and guarantee an optimal feeling when driving a bicycle. Thanks to the combination of soft and elastic FLEXSKIN palm material, as well as soft memory foam and comfortable gel filling, the gloves adapt perfectly to the anatomy of the hand.

Direct pressure on sensitive nerves is reduced and the soft, elastic material of the palm ensures optimal control of the bicycle handlebars in every situation. The material of the cycling gloves with the WINDSHIELD® membrane is windproof, breathable and water-repellent. Specially adapted material on the thumb prevents pressure points on the skin. Touch screen compatibility and the use of particularly absorbent material on the thumb to wipe sweat make the gloves an irreplaceable companion. Velcro fastening ensures a perfect fit. Decorative reflective elements are attached to the back of the hand.
