### Description

Moon Boot women's shoes. Comfortable winter boots ideal for the bitter winter, when thanks to these boots you will be warm, comfortable and in addition. Women's snow boots of a higher cut with a distinctive fur element on the upper edge will immediately attract attention. The snow boots have a fabric upper, an eco-leather shoe edge and a Waterproof Area membrane, so they effectively prevent water from penetrating the shoe.

Boots for ladies have a warming insole that can be removed and a reinforced heel and toe for maximum fixation of the foot. High boots for winter will carry you through snow and ice thanks to a high-quality thermoplastic sole and a solid rubber sole with a non-slip pattern. Be stylish even in winter!

The manufacturer does not recommend the use of impregnations, which may damage the surface material.
