**Ean number**

**Quantity**

**Suggested retail price:** 12.99 € s DPH

### Description

Treatment preparation of the Ademm brand. Effective spray impregnation for all functional materials. Impregnation protects not only footwear, but also clothing, backpacks, tents and other accessories made of synthetic materials and leather. The multipurpose treatment spray effectively protects against moisture, dirt and sunlight. The impregnation preparation protects materials and restores colors.

It is recommended to first create a small trial application in an invisible area of clothing or footwear to test compatibility. The product is supplied in a 250 ml spray bottle with a removable nozzle.

**Use:** Before use, shake the bottle well and remove visible impurities. Apply to the surface you want to impregnate from a distance of approx. 25 cm and let it dry for 30 minutes.
