Description

Freegun thermal underwear for boys. The set consists of a long-sleeved T-shirt and long pants. Underwear for boys is especially useful during cold winter days on the slopes or slopes. But the set of thermal underwear will also be suitable for winter hikes and walks. Tight-fitting thermal underwear is made of high-quality material that adapts well to the body, does not press anywhere and provides excellent freedom of movement.

Thermal underwear for boys is elastic, pleasant to the touch and easy to wear. The set of thermal underwear is dark blue with contrasting seams in orange and a distinctive graphic print on the chest, on the sleeve and on the lower part of the pants. Children's thermal underwear for little adventurers!
