Description

Tecnica women's shoes. Outdoor shoes Plasma durable, light and flexible. Women's forest boots provide excellent traction and support. Hiking boots were designed with an emphasis on mobility in difficult terrain. Women's shoes impress with their timeless design, which makes them a very good choice not only for the forest, but you can also wear them in the city.

The benefit of trekking shoes is the CAS insole, which adapts perfectly to the shape of the foot. The midsole with the Agile system provides excellent cushioning and shock absorption. Trekking shoes for ladies have a durable Vibram sole that convinces with perfect traction and grip. Mountain shoes are the right choice for hiking, trekking and camping.

Product details:
