Description

Men's footwear brand Anta. Dual sports sneakers appeal with a modern design. Training boots are great for combining with T-shirts and sports pants of different colors. The upper part of the sports boots is made of mesh material, which is a guarantee of excellent breathability. The tip of the training sneakers is reinforced with additional synthetic material for better protection of the toes.

The inside of men's sneakers for sports is padded with soft material. The midsole of training boots provides excellent cushioning and shock absorption. Black sneakers are perfect companions for training, sports activities, various exercises and workouts.
