Suggested retail price: 14.99 € s DPH

Description

Volcano men's T-shirt. The T-Fargo T-shirt is made of material with an airy structure thanks to the combination of cotton and viscose fibers. This combination makes the material even more pleasant to the touch. In addition, they perfectly absorb moisture, which you will appreciate on hot days.

The t-shirt for men has a classic cut that allows freedom of movement. To make the neckline look great below the neck, it was reinforced with a hem. The short-sleeved T-shirt is complemented by a smaller chest pocket decorated with the Volcano logo. The green T-shirt is a great companion for casual wear and leisure activities.
