Description

Vans women's shoes. The boots are designed in a trendy urban style, which is suitable for everyday wear during sunny summer days. Black sneakers are a guarantee of all-day comfort and reliable protection, due to the reinforced heel, the padded area around the ankle and the Waffle sole, which stands out for its anti-slip properties. Ward shoes are perfectly combined with different outfits for different events and are a wonderful companion for skateboarding purposes. Vans leisure shoes have a firm fixation of the foot in the shoe, which is secured by classic lacing.

Branded boots for ladies have a durable soft textile upper that will please you during the summer but can also handle worse conditions. They are a guarantee of all-day comfort, thanks to their soft lining and they adapt well to your foot. Vans women's shoes are a must-have item that you shouldn't miss either. They are an excellent choice for work, for casual wear, for walks in the city or other leisure activities.
