### Description

Women's cycling jersey of the brand Briko. A light, nice jersey with a sporty look in a non-traditional design! The black and white cycling jersey for ladies is ultra-light, made of two extremely breathable and soft fabrics that offer comfort and excellent breathability. The sleeves have elastic ends with extra wide cuffs that won't press anywhere. The jersey has a silicone grip on the bottom and on the back of the sleeves.

The cycling jersey for ladies has a minimalist collar that eliminates friction against the skin, which does not cause discomfort when riding and reduces the weight of the jersey. The jersey has a zipper along the entire length, which makes it easy to put on. Ladies will definitely love this cute cycling jersey!
