Description

Five season men's shorts. Thanks to their functional properties, the Track hiking shorts are destined to be great companions for outdoor adventures. The strength of the forest shorts is the water-resistant finish. Trekking shorts for men have an adjustable waist with Velcro, which makes them easy to adjust. The trekking shorts are made of flexible fabric, which guarantees a high degree of mobility.

Outdoor shorts are very practical, as they have several zippered pockets for storing all the necessary small items. Mountain shorts are made of quick-drying material, thanks to which you can handle any ascent. The benefit of hiking shorts for men are YKK zippers, which are extremely durable.
