**Available sizes**

**Reference number**

**Ean number**

**Quantity**

**Suggested retail price:** 49.99 € s DPH

### Description

Five season men's shorts. Trekking shorts have a length above the knees, so they will be suitable for your hiking equipment on warm days. The green shorts for men have an adjustable belt on the sides with Velcro, thanks to which you can adjust their size. Outdoor shorts are made of flexible material that does not restrict your movement.

The hiking shorts are a practical partner, as they have two side pockets with a zipper, a back pocket and a pocket in the thigh area with a zipper. Thanks to them, you will have all the necessary little things with you. The hiking shorts are made of quick-drying material, thanks to which even a difficult hike will not be a problem for you. Another advantage of the men's shorts is that they have durable YKK zippers.
