Description

The cycling soul of the Chaoyang brand. The bicycle tube is light, durable and provides optimal performance. The soul is resistant to frost and overheating. The inner tube is made of synthetic butyl rubber with a wall thickness of 0.90 mm.

The material allows excellent flexibility in tension, which means that the inner tube adapts very well to the shape of the jacket. The density of the material ensures very good resistance to air leakage. The tube valve is made of high-quality materials that extend the life of the cyclo tube.
