Description

Pro-T cycling helmet. Thanks to the in-mold construction, the bicycle helmet guarantees strength and durability. The Alcazar bike helmet in a trendy sports design ensures excellent ventilation with the help of 24 ventilation holes. The advantage of the bicycle helmet is the possibility of customizing thanks to the wheel on the back.

The trendy cycling helmet has a removable sun shield, which you can use especially in sunny weather. There is also a built-in insect net. The cycling helmet has a low weight of only 230 g. The helmet is the perfect companion for all cycling trips.
