Description

Girls' skate protectors from Fila skates. The protectors for girls have an anatomical design, thanks to which they fit very well on the wrists, elbows and knees. In-line protectors have a stylish design that will please all female skaters.

Children's protectors on skates are fastened with Velcro. Thanks to this fastening system, they are easy to adjust and adjust. The inner side of the protectors of Fila skates is padded with a soft material that ensures comfort when wearing. Protectors on inline skates for children protect against abrasions and impacts when falling. Black protectors with colored elements are the perfect choice for skating.

The set includes:

- wrist guards
- elbow pads
- Knee protectors
