### Description

Women's jacket by Northfinder brand. The elongated jacket attracts attention with its nice design. The stylish women's warming winter jacket has matte softshell sleeves and a shiny stitched body with a mid-thigh length. The tourist windbreaker is a combination of functional elements that make urban clothing more elegant and versatile. The construction of the trekking jacket is flexible. The trekking jacket is windproof and insulates well during cold mornings.

The soft and light fabric on the front and back is stylishly stitched. A synthetic down-like filling takes care of warmth. The insulation of the outdoor jacket is breathable and very flexible. The insulated hood ensures protection in windy weather. The main two-way zipper guards the bar from the inside against blowing out. You can store your mobile phone in a secure inner zip pocket. The jacket for the forest will pleasantly warm you in dry weather. A black jacket is a great choice for leisure and outdoor activities.
