**Suggested retail price:** 33.99 € s DPH

### Description

Under armor brand cap. The winter hat appeals with a modern design. The stitched material, which contrasts with the cuff of the cap, looks interesting. The bobblehead will add a twist to the cap for the winter.

Thanks to UA Storm technology, the branded cap has a waterproof finish. Synthetic insulation will provide warmth in dry weather. ColdGear Infrared® technology perfectly retains body heat without adding weight or bulk. It's a special, soft print on the inside of the Under armor cap. The black cap is a very good choice for everyday wear, in the city and for leisure.

### Product details:
