Description

Under armor backpack. The Hustle Lite backpack is designed in a modern urban style. The branded backpack has one main compartment, which is spacious enough. The trendy backpack also has a compartment for a laptop. The stylish backpack also has one pocket on the front for quick access to the necessary things.

The advantage of the trendy backpack is the waterproof finish, which is ensured by UA Storm technology. You can comfortably carry the branded backpack thanks to the padded shoulder straps, which are easily adjustable. The padded back panel also contributes to wearing comfort. The bottom panel of the modern backpack is coated with synthetic material for greater durability. The black Under armor backpack is a top choice for the city, to school, for everyday wear and for a trip.
