Description

Men's footwear brand Anta. Running sneakers appeal not only with a modern design, but also with excellent functional properties. Running boots are great for combining with many sports outfits. Running sneakers have a classic cut that is suitable for every type of foot.

The top of the running shoes is made of perforated knit, which is a guarantee of excellent air circulation. The toe and heel of the running shoes are reinforced with synthetic material for a higher level of resistance and protection of the foot. The midsole of the running shoes ensures perfect cushioning and shock absorption. The advantage of branded sneakers is the A-Flash Bubble technology, which provides very good cushioning. The insole ensures comfort when wearing. Men's boots are good companions for running and sports.
