### Description

Vans men's shoes. Range Vansguard sneakers appeal with an original design. Black sneakers in hipster style will attract attention at first sight. An interesting element of modern boots is the nice stitching. The massive collar is made of structured contrasting fabric.

The toe of men's boots is additionally reinforced with rubber material. The suede upper provides good air circulation. The material has undergone water-repellent treatment by Vansguard. The inside is made up of a soft insole and, together with the textile padding, they ensure all-day comfort when worn. The anti-slip sole has a rugged pattern. Vans black boots are an excellent choice for everyday wear, for the city, for work and for leisure.
