Description

Anta men's jacket. The training jacket will attract attention not only with its modern appearance, but also with its good functionality. The sports jacket is made of softshell material, which is extremely durable. A windbreaker for training is a guarantee of protection in adverse weather. If training and sports are your lifestyle, you should not miss this jacket.

The sports windbreaker has a narrow cut that provides a very good level of mobility. You will appreciate the hood on the training windbreaker especially in dry weather. There are also two side pockets for storing a mobile phone or keys. One more chest pocket is a plus. The dark blue windbreaker is the perfect choice for training, sports activities, work-out exercises and active leisure time.
