Description

Authority Kids ski pants. Children's ski pants in a modern menthol color "mint". Snow pants are designed for winter adventures. Bib ski pants are waterproof and windproof, but also breathable. They have practical pockets on the sides that close with a zipper, where you can store, for example, gloves or other small items. Another practical pocket is located above the left knee.

Children's ski pants are fastened with a zipper and snaps. The waist includes a practical elastic band, thanks to which the pants can be adapted to any child's figure. Children's warmers are made of durable material. The lower inner part of the trousers is reinforced, thanks to which the waterproof trousers are not destroyed so quickly. Ski pants for children have gentle cuffs that prevent snow from penetrating inside the pants or boots. There is a practical zipper at the end of the pants, which allows you to expand the lower part for a better fit of ski boots. Blue ski pants are a great choice for skiing and winter sports.

Product details:

- durable material
- suspender pants
- waterproof and windproof
- breathable
- side pockets with zipper closure
- one pocket on the left thigh
- elastic band
- zip and snap fasteners
- reinforced lower part
