**Description**

Skechers women's shoes. Women's ankle boots in beige color with contrasting rubber sole. Beige winter boots impress at first glance with their artificial fur and will please all lovers of clean colors and cuts. The perforated upper ensures proper ventilation of the foot even after wearing it all day. The anti-slip sole ensures a stable step even on wet or uneven surfaces.

Ankle boots with fur have laces and a zipper on the inside. So you can choose which binding suits you better. The higher cut of the shoes will protect you from the winter. Stylish winter boots are also comfortable thanks to the Air Cooled Memory Foam® cushioned insole. The brand's women's winter boots also have an air-suspended Skech-Air® midsole that absorbs shocks.
