### Description

Ademm fabric care product. Active foam for effective cleaning of shoes, textiles and other products made of leather, textiles and mixed materials. The cleaning product gently and gently cleans thanks to the applicator's patent sponge. It also removes stubborn dirt, such as salt, grass and oil stains, easily and quickly. The cleaning product is solvent-free and biodegradable. Ademm products are a guarantee of quality and provide top performance when cleaning leather, synthetic and textile materials.

Apply the foam and spread the foam over the surface in a circular motion until the contaminated area is cleaned. After use, wash the sponge with the brush under running water and let it dry.
