Description

Men's footwear brand Anta. Men's sneakers in classic black design. A trendy look is created by the upper, which is a combination of several cuts and thus creates an interesting design. The upper is slightly perforated in the front and on the side and provides sufficient breathability thanks to the textile tongue. Black sneakers have a light construction, which you will definitely appreciate especially when worn all day.

Men's Anta boots have laces in a contrasting white and black color. The comfortable interior and padded collar of the shoes will ensure your comfort. Branded men's sneakers have a practical loop at the back and on the tongue, which makes it easier to put on and take off. The Anta logo is located on the side and heel of the sports shoes. Men's sports shoes have a rubber sole with a shiny element on the side, which ensures stability even on uneven terrain. Stylish boots are suitable for leisure activities, work, town or school.
