### Description

Icebug men's shoes. Pace is the perfect winter shoe for those looking for walking comfort, insulation and stability. The upper material is Ripstop fabric, which is very easy to maintain. Icebug ankle boots appeal with a modern yet timeless look. Branded shoes are the right choice for casual wear in winter.

The advantage is the 100% waterproof and breathable GORE-TEX® membrane, which ensures that the feet stay dry and comfortable. Michelin Wic rubber performs excellently at low temperatures. The design has a clean and sporty look that perfectly matches the shoe's ambition: to provide traction, shelter and warmth for those who want to stay active all year round.
