Description

Bolle ski goggles. The red ski goggles have a double photochromic lens and provide you with 100% UV protection. They are suitable for changeable weather. Phantom photochromic lenses ensure phenomenal optical clarity and adapt to any lighting conditions. The lens filter belongs to the Cat 2 category. The red Bolle glasses provide a wide field of vision and excellent visibility. They allow symmetrical ventilation to optimize internal airflow and prevent fogging. The Anti-Fog treatment also serves against fogging.

Branded ski goggles stand out with their light construction. Double face foam will provide comfort during wearing. The flexible and adjustable strap allows for a perfect fit. The color red also makes you more visible. Anti-Scratch treatment is also a matter of course. Ski goggles should not be missing for any stylish skier.
