Description

Voxx brand socks. Dualix hiking socks are two-layer special socks for men and women. Trekking socks are specially knitted. Outdoor socks create an extra warm and at the same time highly breathable environment for the feet. At the same time, hiking socks have reinforced terry zones to protect against bruises and blisters.

Of course, there is a loose, non-tight hem that does not constrict the leg and guarantees good blood circulation. Trekking socks are made of only the highest quality materials available: merino wool, SilproX, Polycolon, Drytex and have antibacterial protection with silver ions. Merino Dualix socks are the perfect choice for hiking trails, trekking and outdoor adventures.
