Description

Men's Everett jacket. Men's softshell jacket in a modern, sporty look. The hiking jacket is made of softshell material, which provides excellent protection against wind and cold. A higher collar with chin protection and a hood with a soft visor will further enhance the feeling of comfort in adverse weather. The hood is removable thanks to the zipper. It can be pulled down with elastic cords in the neck area and another drawstring also goes through the middle part of the hood. The men's transitional jacket dries quickly, but retains its breathability. The admixture of spandex will allow freedom of movement in all directions.

The trek jacket fastens with a high-quality YKK zipper. The zipper is supplemented with a protective flap against the wind on the inside. The outer cuffs can be adjusted with Velcro. The men's trekking jacket has a bottom hem that can be pulled down with an elastic band. The hiking jacket has practical side pockets with a zipper. Another zipped pocket is located on the chest, along with a trendy Everett print. One small pocket can be found inside the sports windbreaker. The inside of the trekking windbreaker is lined with waffle fleece material. The bonus is reflective elements that will make you visible even in bad weather. They are located on the sleeves and hood. The branded jacket is the right choice for nature, trips or walks.
