Description

Under Armor women's bra. Compression bra in trendy black and neon green colors. The sports bra provides you with strategic support adapted for medium-intensity activities, such as cycling, strength training and boxing. The Under Armor bra has soft, quick-drying cups that provide additional structure and coverage with perforations for increased breathability. Of course, there are removable inserts with a right and left label, so that you can always put them back in place correctly.

The training bra has crossed straps for easier dressing and undressing. The improved internal construction of the bra helps keep the pads in place during wear and washing. The very smooth and soft elastic bottom band has the Under Armor logo on it. The extremely smooth two-layer fabric, made with HeatGear technology, provides an excellent feeling in contact with the skin. The Under Armor bra is made of material that wicks away sweat and dries very quickly.
