Description

Cycling helmet brand R2. Children's bicycle helmet in a beautiful pink design with a flower motif. The bike helmet will especially please girls - little cyclists. The cycling helmet for children has a light construction. It is made with InMold technology, so it is strong and durable. An antibacterial lining and an insect net are a bonus. The girl's helmet has padding for greater comfort during wear.

The helmet for children is simply turned on with the Easy Click system. Fastening with the Dual FIX system makes the helmet easy to control and adjust. It is an ingenious system that adapts to the shape and size of the head as much as possible. It is operated with one hand using the scroll wheel. The children's bicycle helmet uses the AIR FLOW ventilation system and 17 ventilation holes provide sufficient air circulation.
