Description

Northfinder men's vest. The trekking vest insulated with fleece will appeal to men who prefer a modern yet timeless look in combination with excellent functionality. The trekking vest will delight you with its windproof material, which protects in adverse weather. Excellent water repellency is also a plus.

The hiking vest is a guarantee of a high level of mobility. The back of the men's vest is made of breathable material. Outdoor vest provides super comfort when wearing. Two side pockets and one chest pocket will serve to store things such as cell phone and keys. The black vest is a great choice for hiking, walking in nature, trekking and camping.
