Description

Nike women's socks. The socks are in a universal white design. The Nike Everyday Lightweight socks will impress you with their pleasant-to-the-touch material with metalized fiber and quality design. The material wicks away sweat quickly and the mesh panels help keep your feet cool. The socks have reinforced toes.

Women's low socks are designed for active sports and casual wear. Due to their cut, branded socks are suitable for ballet flats, tennis shoes and other shoes where they are not visible. The white socks for ladies do not slip and stay firmly on the foot thanks to the elastic hem. There is a Nike logo on the front.
