Description

Men's trousers of the brand Northfinder. Hiking pants in a classic design and cut will please all lovers of mountain trails who want to stand out. You will be unmissable in red trekking pants. The checkered trousers for the mountains were made of a strong and light material with an admixture of cotton. Comfortable trousers for the forest have shaped knees. They will thus provide maximum comfort. The reinforced knee area and seat area are also an advantage.

The hiking pants have an adjustable waist with a built-in belt, which allows them to be individually adjusted. You will find two pockets in the front, one of which closes with a zipper and two pockets in the back, also one with a zipper. The lower edge of the Northfinder trousers is adjustable. A bonus is the ventilation located in the area below the knee. Red trekking pants are the right choice for your nature walks.
