Description

Men's trousers of the brand Northfinder. Hiking pants in a classic design and cut will please all lovers of mountain trails. Checkered trousers for the mountains are made of strong and light material with an admixture of cotton. Comfortable trousers for the forest have shaped knees to provide you with the best possible comfort. The advantage is reinforced knees and the seat.

The hiking pants have an adjustable waist with a built-in belt. In the front you will find two pockets, one of which closes with a zipper. The same pockets are also located at the back. The lower edge of the Northfinder trousers is adjustable. Ventilation under the knee is a bonus. Green trekking pants are the right choice for your nature walks.
