**Suggested retail price:** 179 € s DPH

### Description

Children's bicycle brand Amulet. The children's bicycle AMULET 16 Speedy is among the popular models from the 2022 collection. The basic model with a wheel diameter of 16 inches has an excellent price/quality ratio. The new geometry of the frame ensures excellent handling and agility. Light transmission for easy starting and two independent brakes are ideal for safe stopping.

The bicycle for children has a modern design in trendy colors. A bonus is the low weight of the bike, only 8.4 kg. A children's bicycle simply belongs to childhood!

The package also includes auxiliary wheels.

**Note: on a bicycle with a frame size of 16" the stand is not usually mounted due to the auxiliary wheels.**
