Description

Amulet brand junior bike. The children's mountain bike Amulet offers the best that you need for new adventures and routes. The new 29 Youngster Carbon with a small frame received original Shimano components in the technical specification, which help the bike to function flawlessly. Shimano Deore 12sp shifting and drive, Shimano hydraulic brakes and Kevlar tires make the Youngster the right racer.

The mountain bike for children also stands out for its low weight, only 10.7 kg. A carbon fork is a bonus, and the modern design and trendy colors are a matter of course. Treat your children to the best while they grow up!
