Description

Phinomen water shoes. Waterproof water shoes are suitable for the pool, the sea, the beach or water sports. Women's or men's water shoes have a non-slip sole, so you can fully devote yourself to what you love. The elastic sock construction of the shoes is seamless and perfectly hugs the foot. You feel like you're wearing slippers. The material with breathable mesh inserts ensures an optimal climate for your feet in both dry and wet conditions. Its quick drying and dimensional stability are also a bonus.

The water shoes can be individually adjusted in the back part using a string with a stopper. The sole is durable and optimally flexible for greater comfort. Blue women's and men's water shoes are decorated with the brand's logo on the front. Brand water shoes perfectly protect the feet from injury and prevent accidents. The Phinomen water shoes from Beco simply belong to a summer vacation. You can wash the shoes at 30°C.

Product details:

- waterproof shoes for the water
- unisex
- modern look
- brand logo on the front
- the elastic material dries quickly and is dimensionally stable
- without seams
- breathable mesh inserts ensure comfort in both dry and wet conditions
