Description

Phinomen water shoes. Waterproof water shoes are suitable for the sea, the pool, the beach or for surfing and other water sports. Women's and men's water shoes have a non-slip sole, so you can fully devote yourself to what you love. The elastic sock construction without seams hugs the foot perfectly and makes you feel like you're wearing slippers. Waterproof material with breathable mesh inserts ensures an optimal climate for the feet in both dry and wet conditions. Its quick drying and dimensional stability are also a bonus.

The water shoes can be adjusted in the back part using a string with a stopper. The sole of the water shoes is durable and optimally flexible for greater comfort. Black women's and men's water shoes are decorated with the brand's logo. Brand water shoes perfectly protect the feet and prevent injuries. The Phinomen water shoes from Beco simply belong to a summer vacation. You can wash the shoes at 30°C.

Product details:
