### Description

Adidas children's shoes. Children's sneakers in a universal and timeless black and white design. adidas boots have a lightweight construction and are breathable enough to be a suitable choice for everyday wear. Children's boots have a breathable upper, which is supplemented with strengthening parts in the area of the heel and the middle part of the foot.

Branded sneakers for children have elastic laces and one Velcro strap. They have a classic cut, so they fit well on every foot. The black sneakers are decorated with the adidas logo and the iconic three stripes on the side. A padded collar and a comfortable inner insole contribute to maximum comfort during wear. Adidas sneakers are partly made of recycled materials. Children's brand shoes are suitable for school, but also for active training or sports.
