**Suggested retail price:** 2119.99 € s DPH

**Description**

Amulet electric mountain bike. Mountain ebike eRival 4.0 with a powerful BAFANG M410 electric motor, which is developed for optimal transmission of power when driving. It impresses with a power of 250 W and a maximum torque of 80 Nm. In conjunction with the IPS battery, which uses Samsung cells, with a capacity of 720 Wh, it will provide enough energy for long trips.

The system reaches a range of 50-150 km, depending on the selected level of support. The eRival 4.0 electric mountain bike is equipped with a 10-speed S-RIDE M400 gear set and a cassette with a range of 11-40 teeth. In combination with a suspension fork and hydraulic brakes, the eRival 4.0 is a great choice for long trips into nature. The WALK function is also an advantage, which helps when pushing the electric bike, either uphill or on the flat. Enjoy the ride to the max!

The price of the bike also includes a Samsung battery charger. It is a high-capacity Samsung Li-Ion 720 Wh/20 Ah battery. It is partially integrated into the frame of the e-bike and supplies energy to the entire system. Thanks to its central mounting, the electric bicycle is perfectly balanced, stable and easy to control. The battery will take you up to 150 km on a single charge (depending on the surrounding conditions and level of assistance). It is also equipped with a BMS board (Battery Management System), which protects it from overheating, overcharging or short circuits. You can charge the battery on the bike carrier or, if necessary, remove it and charge it outside the bike. A fully charged battery can be charged to maximum capacity in 5 hours.

**Product details:**

- [high-capacity rechargeable IPS Li-Ion battery with Samsung cells](#) and parameters 36V and 20Ah (720 Wh) worth €850 is included in the price of the bike
