**Description**

Under Armor boys' shoes. Sports shoes for boys have a distinctive blue color and are decorated with white UA logos. Blue sneakers for boys have a lightweight mesh upper that will provide enough breathability. The toe and heel of the sneakers are reinforced, so the children's sneakers provide additional flexibility and support. Brand Under Armor sneakers have improved padding in the ankle area, so they don't press or irritate anywhere. Blue boots fasten with Velcro and laces.

Boys' boots have a shaped inner insole. It adapts to the child's foot and eliminates slipping inside. Under Armor children's sneakers have an EVA foam midsole. Thanks to this, they provide cushioning and are extremely comfortable even for all-day wear. The durable rubber sole has a long life and the slightly raised lugs provide excellent traction and grip.
